

Pneumatic Night Splint

Posterior Night Splint

The Pneumatic Night Splint features a fully-integrated inflation/deflation system that can be easily operated with one hand. The internal air bladder is infinitely adjustable so every wearer can find the degree of dorsiflexion that works best for them.

DARCO

Deflated

Inflated

The Pneumatic Night Splint has an air bladder Located under the metatarsal head to provide forefoot elevation to increase the stretch to the plantar fascia.

Pneumatic Night Splint Features and Benefits:

- › **Integrated air system** makes inflation and deflation a snap.
- › **Internal air bladder** allows for infinite adjustments to suit any wearer.
- › **Cotton terry cloth liner** is soft, comfortable and absorbent.
- › **Provides the stretch** to the plantar fascia that is the key to relief.
