

The All Purpose Boot embodies nearly perfect four-season postoperative protection with a closed-toe design that keeps dressings and toes warm and dry. Our boot is designed to provide unparalleled versatility by accommodating both bulky dressings and most fiberglass casts.

It now features a durable EVA outsole that is **20% lighter** than previous models, with a specially designed zoned outsole providing improved traction and **150% better rebound** to retain its shape and thickness over time.

# The Benefits

## Zoned EVA Outsole

The APB™ features an EVA outsole 20% lighter than previous models, with our specially designed zoned outsole providing improved traction. Offering all season postoperative protection the APB™ provides 150% better rebound than standard post op shoes.

## Ultimate Pressure Reduction

The All Purpose Boot's foaming EVA outsole provides best in class pressure reduction, reducing toe pressure by 28% and forefoot pressure by 12.8%

## Offloading Capabilities

The All Purpose Boot features a bamboo MetaShank™ that maintains rigidity and provides stabilizing control to ensure proper foot positioning throughout the recovery process. Combine with the PQ PegAssist to transform the APB into a diabetic offloading

*Zoned outsole provides aggressive tread where traction is needed most*

*Ultimate Pressure Reduction*

*Covered toe for all season protection*

Bilateral

For diabetics

## Indications

- Postoperative for stabilization and off-loading
- Postoperative healing (e.g. foot osteotomies)
- Trauma care
- Presence of K-wire

## Contraindications

- Open fractures

**Suggested Code: L3260**
