## The Benefits

### Wave Compression Technology

Creates six zones of compression ranging from light to firm providing a sustained stretch to the plantar fascia throughout the day to improve circulation and reduce swelling.

### 24-Hour Support

Provides 24-hour support. Wear while sleeping and under socks when active.

### Comfort Without Compromise

Comfort Zone with reduced compression at the base of the ankle prevents pinching or binding. Made from latex-free, medical-grade fabric.

## Indications

- Plantar Fasciitis
- Heel Spurs
- Arch pain
- Arch weakness
- Edema

## Contraindications

- Poor circulation
- Diabetic foot/ neuropathy
